3. BACKGROUND AND LEGISLATION

Background

It is intended that all Victorian children have access to a year of kindergarten before school. The Victorian Government requires funded organisations to ensure that their policies and procedures promote equality of opportunity for all children. Criteria for access and inclusion are outlined in the *Victorian kindergarten policy, procedures and funding criteria* (refer to *Sources*) and include the requirement that funded organisations comply with existing legislation.

State and Commonwealth laws prohibit discrimination based on personal characteristics, including race, age, gender, religious belief, disability and parental status. Underpinning the development of this policy are the requirements of the *Equal Opportunity Act 2010*, *Charter of Human Rights and Responsibilities Act 2006*, *Child Wellbeing and Safety Act 2005*, *Disability Discrimination Act 1992*, *Disability Act 2006*, *Education and Care Services National Law Act 2010* and *Education and Care Services National Regulations 2011*.

“Children enrolling in kindergarten come from a variety of backgrounds and home situations. These circumstances need to be considered when engaging with parents and supporting children in the kindergarten program. Where families are accessing additional support from other services, it is important to ensure that a coordinated, confidential and sensitive approach is undertaken to providing support and strengthening the capacity of the family unit.

“On commencing kindergarten, services should provide families with information about:

- *the role of inclusive practice in achieving outcomes for all children and the key values underpinning inclusive practice*
- *the support options available for children during the year...”* (*Victorian kindergarten policy, procedures and funding criteria* – refer to *Sources*).

“Inclusion involves taking into account all children’s social, cultural and linguistic diversity (including learning styles, abilities, disabilities, gender, family circumstances and geographic location) in curriculum decision-making processes” (*Guide to the National Quality Standard*, Element 1.1.5 – refer to *Sources*).

Practice Guide Four: Equity and Diversity is one of a series of *Victorian Early Years Learning and Development Framework Practice Guides* (refer to *Sources*), and includes examples of best practice from a range of early childhood professionals across diverse settings.

In addition to developing and implementing an inclusion and equity policy, values of inclusion and equity should also be incorporated into a service’s philosophy statement.

Developing professional knowledge and skills, and using family-centred practice (refer to *Definitions*) to work in partnership with children, families, communities, and other services and agencies, will assist services to identify, include and support children with additional needs and their families.

Under the Commonwealth's *Disability Discrimination Act 1992*, it is illegal to discriminate against a person on the basis of the presence of organisms in their body that are capable of causing disease or illness. Early childhood services are also obligated by law, service agreements and licensing requirements to comply with the Education and Care Services National Law and National Regulations, and privacy and health records legislation in relation to collecting and storing personal and health information about individuals (refer to *Privacy and Confidentiality Policy*).
